

Goal for 12th grade

Build and Top Your Tower

Enjoy the view!

Take some time to reflect
on all you've built
you truly are remarkable!

College applications: Start the year writing reflective essays about yourself. The activity reflection's can be a great starting place for finding stories about commonly asked topics: leadership, challenges, hardships, adversity, growth, tackling a problem, responsibility, your passions, who are you, etc. Oregon Tutor can help edit essays and guide your process.

Classes: take the highest level courses you can, especially if college now or AP/IB is an option

Tests: If unsatisfied with ACT/SAT scores retake the exams in the fall. September and October are most recommended.

Extracurriculars

Step into leadership Positions. Take your passions to new heights

Support your shape

If 'pointy' create capstone projects for specialized scholarships. Round--apply to well-rounded scholarships

Grades

Finishing strong is always good, but depending on when you apply colleges will not have your grades for senior year
